<b>REVENUE/EXPENSE</b>						
Instruction (thousands)	Instruction - total expenses is the sum of all operating expenses associated with colleges, schools, departments, and other instructional divisions of the institution; departmental research and public service that are not separately budgeted. This includes compensation for academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and remedial and instruction conducted by the teaching faculty for the institution's students.	Finance	F1617_F1A	F1C011		Instruction - Current year total
Research (thousands)	Research - total expenses is the sum of all operating expenses associated with activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted organizational unit within the institution. The category includes institutes and research centers and individual and project research. This function does not include non-sponsored programs (e.g., training programs).			F1C021		Research - Current year total
Student Services (thousands)	Student services - total expenses is the sum of all operating expenses associated with admissions, registrar activities, and activities whose primary purpose is to contribute to students' emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples include student activities, culture, student newspapers, intramural athletics, student organizations, supplementary instruction outside the normal academic program (remedial instruction for example), career guidance, counseling, financial aid administration, and records.			F1C061		Student Services - Current year total
Scholarships (thousands)	Scholarships and fellowships - total expenses is the sum of all operating expenses associated with scholarships and fellowships treated as expenses because the institution incurs an incremental expense in the provision of a good or service. Thus, payments, made to students or third parties in support of the total cost of education are expenses if those payments are made for goods and services not provided by the institution. Examples include payments for services to third parties (including students) for off-campus housing and for the cost of board provided by institutional contract meal plans. The amount of expense in this function is the total of all institutional scholarships recorded that is classified as discounts and allowances.			F1C101		Scholarships - Current year total
Tuition & Fees (thousands)	The amount of tuition and required fees covering a full academic year most frequently charged to students. These values represent what a typical student would be charged and may not be the same for all students at an institution. Tuition is charged on a per-credit-hour basis, the average full-time credit for an entire academic year is used to estimate average tuition. Required fees include all fixed sum charges that are required of such a large proportion of students that the student who does not pay the charges is an exception.			F1617_F1A		F1B01
Government Grants (thousands)	Federal operating grants + State operating grants			(F1B02 + F1B03)		Federal operating grants, State operating grants

Private Grants (thousands)	Local/private operating grants and contracts are revenues from local governmental and nongovernmental agencies and organizations that are for specific research projects or other types of programs and that are classified as operating revenues. Examples are research projects and similar activities for which amounts are received or expenditures are reimbursable under the terms of a grant or contract.
